Work History

Senior Frontend Developer, 01/2015 to Current
VT Netzwelt Pvt Ltd – Mohali, India

- I started my career as a UI/UX Web Designer at VT Netzwelt, building a strong foundation in visual design and user experience using tool Adobe Photoshop CC, Invision, Zeplin, Figma
- Transitioned into a Frontend Developer by mastering HTML, CSS, and JavaScript, and UI implementation best practices.
- Developed reusable UI components using modern JavaScript frameworks like React, Angular, Svelte, and Vue, increasing the productivity of the entire development team.
- Implemented responsive design principles to ensure optimal display on various devices, improving overall usability for users on both desktops and mobile devices.
- Coordinate with the client over the call, and discuss the assigned task on Jira.
- Collaborated with back-end developers to integrate RESTful API endpoints into the front-end architecture seamlessly.
- Proficient in creating responsive and accessible interfaces using HTML5, CSS3, Flexbox, and Grid layout.
- Skilled in styling using components of Bootstrap, Material CSS, Shadcdn, Tailwind, etc.
- Created my own UI components library using Shadcdn for Svelte and Storybook for React.
- Managed source code effectively using Git branches, pull request reviews, and merge conflict resolutions.
- Increased website accessibility by ensuring compliance with WCAG 2.1 guidelines.
- Performed unit testing of web applications and troubleshoot issues.
- Using SonarQube for code quality and assurance to deliver the best practices.
